

FARM SAMPLING

PROCESS SAMPLING

PERFORMANCE ANALYSIS

# 3 oz Solid-Top Vial

Single Use Clean Flip-Top Vial for Dairy, Food and Veterinary Sampling

## Applications

### Fields of use

- Field collection of farm milk and related dairy products
- Quality control sample storage containers and food packaging vials
- Veterinary specimen collection, infection control of mastitis
- Environmental sampling containers

### Options

- Can be supplied with label (barcode...)
- Standard vial is colourless – colours upon request

## Benefits

### Flip-Top Design

- Design allows single handed opening and closing
- Patented "in mould closing" process for snap seal
- Aseptic and leaktight by process of manufacture
- Translucent enabling visual inspection
- Food Grade Polypropylene and 100% Recyclable
- Vial is usable while wearing protective gloves eg cold environment

### User-Friendly Hinged Vial Concept

- One-hand opening and closing for perfect cleanliness and ease of use
- Allows the use of gloves in cold environment

### Regulatory and Quality

- ISO-9001 certified company
- Complies with Regulation (EC) No 1935/2004

## Characteristics

Please note that these values are average measurements

Internal Volume	77 ml
Filling Level Line	60 ml
Vial Overall Height	85,8 mm
Body Height	83,5 mm
Inside Height	83,7 mm
Top Lid Diameter	40,1 mm
Top Body Diameter	36,3 mm
Inside Top Diameter	35,6 mm
Bottom Body Diameter	35,1 mm
Vial Weight	10,4 grams

PRODUCTION MOULD #723

ART. # 03 03 6086 0000 CN

In Colour Clear – 400 Pieces per Box – 30 Boxes – 12.000 Pieces per Pallet
